#### HOSTS

THE GOVERNMENT  
OF THE REPUBLIC  
OF BASHKORTOSTAN

MINISTRY OF INDUSTRY,  
ENERGY AND INNOVATIONS  
OF THE REPUBLIC OF BASHKORTOSTAN

#### TRADITIONAL SUPPORT

MINISTRY OF INDUSTRY  
AND TRADE OF THE  
RUSSIAN FEDERATION

MINISTRY OF ENERGY  
OF THE RUSSIAN FEDERATION

#### CONTRIBUTION

UNION OF OIL AND GAS  
PRODUCERS OF RUSSIA

OIL AND GAS EQUIPMENT  
MANUFACTURERS ASSOCIATION

ENERGOINNOVATION  
ASSOCIATION OF ENERGY INNOVATION ENTERPRISES

## 32nd International Exhibition GAS. OIL. TECHNOLOGIES

- ⚡ The key and one of the largest specialized petrochemical industry exhibitions of Russia has been taking place since 1993.
- ⚡ Traditional support of the Ministry of Energy of the Russian Federation and the Ministry of Industry and Trade of the Russian Federation, branch associations and corporations.
- ⚡ The exhibition is among TOP 5 largest oil & gas exhibitions of the country
- ⚡ The project facilitates the implementation of innovation technologies and equipment into petrochemical industry, it creates welcoming environment for the development of new forms of mutually beneficial cooperation.
- ⚡ Participation of more than 300 companies – key business figures of oil & gas and chemical industry.
- ⚡ Broad geography of exhibition participants that includes specialists from all oil & gas producing regions of Russia, near and far-abroad countries.
- ⚡ Business meetings with leading specialists in the field of oil, gas and petrochemistry, personalized invitations, case-zones for presentations.

## TOPICS

- ⚡ Exploration and production of oil and gas
- ⚡ Construction and development of fields
- ⚡ Service direction. Engineering services
- ⚡ Oil processing and petrochemistry. Chemistry
- ⚡ Equipment and technologies of oil and gas processing
- ⚡ Supply and sale of oil, gas and oil products
- ⚡ Machinery and equipment for use of gas motor fuel
- ⚡ Ing: production, transport, distribution and use
- ⚡ IT-technologies in oil & gas industry, digitalization
- ⚡ Automated control and instrumentation systems
- ⚡ Electrical equipment for fuel & energy complex
- ⚡ Auto specialized machinery for transportation of oil, oil products, chemicals
- ⚡ Import substitution in fuel & energy and chemical-engineering complex
- ⚡ Safety systems and fire prevention

# RUSSIAN PETROCHEMICAL FORUM

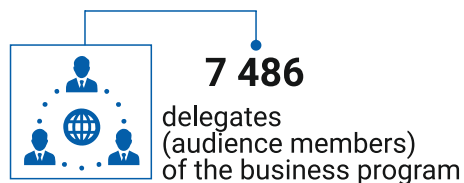

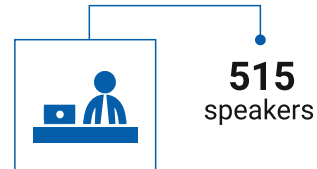

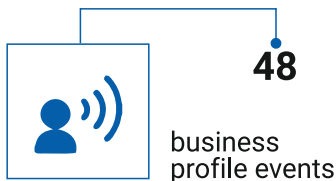

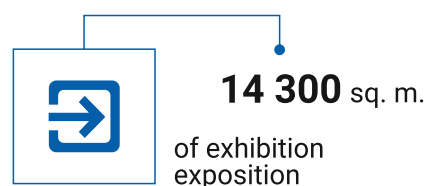

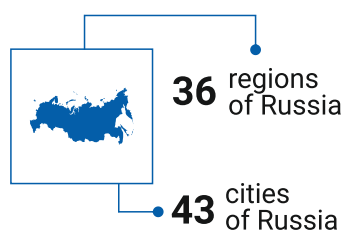

## BUSINESS PROGRAM

- ⬢ Development of national import-substituting technologies in oil & gas industry
- ⬢ Training of purchasing and logistics specialists
- ⬢ Measures of state support
- ⬢ Metrological oil and gas production support
- ⬢ Technological development of oil processing and petrochemistry
- ⬢ Robotic technology and digital technologies for Fuel & Energy Complex
- ⬢ Modern drilling technologies
- ⬢ Industrial safety: digital solutions
- ⬢ Information technologies
- ⬢ Health protection of workers at industrial enterprises
- ⬢ Oil-field and low-tonnage chemistry
- ⬢ Hydrocarbon reserves difficult to recover

## RESULTS OF 2023

**Delegations of 9 foreign countries:**  
Azerbaijan, Republic of Belarus, Iran,  
China, Mongolia, Republic of Kazakhstan,  
Tajikistan, Türkiye, Uzbekistan.

## REPUBLIC OF BASHKORTOSTAN

One of the oldest oil-producing regions of Russia  
The Republic is among the leaders in terms of oilstock refining output  
Area – 14 000 sq. m.  
Capital – Ufa city  
Population – 4 000 000  
7th place in Russia in terms of population  
More than 100 nationalities  
The Republic shares borders with 6 territorial entities of the Russian Federation: the Perm Territory, Sverdlovsk Region, Chelyabinsk Region, Orenburg Region, the Republic of Tatarstan and the Udmurt Republic.

### FIELD STRUCTURE

The Republic includes 8 259 enterprises including 364 large and medium-sized ones, 300 of them are in the oil & gas industry.  
More than 180 fields in commercial development  
21 mln tons of oil produced annually  
More than 18 mln tons of oil output annually  
100 billion cub.m of gas transfer  
10700 km of oil pipelines and oil-products pipelines

**Bashkortostan** is the main producer of light oil products in the country and it takes

- 1st** place in terms of diesel fuel output
- 2nd** place in terms of automobile gasoline output
- 3d** place in Russia in terms of caustic soda production

In Bashkortostan, there is the largest territorial industrial complex of Russia that specializes in output of organic and inorganic chemistry products.

In terms of chemistry production output, the region takes the following positions among territorial entities of the Russian Federation:

- 1st** place in terms of caustic soda and benzol output
- 1st** place in terms of primary oil processing
- 3d** place in terms of sulphur output

In the Republic there is a government program called Development of Industry and Increase of its Competitiveness in the Republic of Bashkortostan 2019-2024.

Total financial support of the government program in 2019-2024 amounts to 593 108.8 thousand rubles, including 593 108.8 rubles funded from the budget of the Republic of Bashkortostan

For participation in the Exhibition, please contact:  
7(347) 246-41-77, 246-41-86 gasoil@bvkexpo.ru
